- Worked on creating NPM Libraries for code reusability.
- Worked on adding AWS S3 and cloudfront url for dynamic image resizing feature.

Angular Developer

Jan 2020 - Sep 2021

CqlSys Technologies

- The Aim of the project was to create an application that can help both Photographers and End User to have a platform where the End users can book a photography session for any of their occasion
- End user can book the photographer for their occasions by just adding the location, date, time and by selecting the event for the shoot
- Once the booking request is accepted by any photographer then both can chat on platform and decide the selection of date and venue for the shoot
- Helping leads with the time estimates and DFD(Data Flow Diagrams)
- Worked on live tracking of user using Angular Google Maps(AGM)
- Worked on building live notification setup using ngsw service workers and firebase
- Worked on adding NGRX state management to the project application
- Worked on adding chatting application as a part of application using SOCKETS.IO
- Worked on adding SSR to the project
- Handling Client Interaction and understanding module / project requirement
- Integrating AWS S3 bucket to the application for storing files and retrieving images from AWS S3

Education

Masters Computer Application

2019

Chandigarh University

- GPA: 7.83

Skills

- Javascript
- Typescript
- Angular2+
- Ngrx
- PWA
- State Management
- Redux
- GraphQL
- HTML
- CSS
- NgSw
- Jasmine
- Karma
- MySQL
- HyGraph

Devops Technologies

- GitHub
- GitLab
- Cloudfront
- Vagrant

Certifications

- Contentful Certified Professional.
- Udemy ReactJs certification
- Rosetta stone certificate of english language ability

LinkedIn Assesments

- Angular
- Javascript
- Php
- ReactJs
